Re: Certificate of Completion for Phase 1 of the Point Ruston Remedial Action

**Commencement Bay Nearshore Tideflats Superfund Site -- Second Amendment to the
Consent Decree, Civil Action Number C91-5528 B**

Dear Mr. Cohen:

This letter provides Point Ruston with Certification of Completion for Phase 1 of the Remedial Action. The activities which lead to this Certification of Completion and the areas covered by this Certificate of Completion are described below:

Point Ruston requested that EPA provide Certification of Completion for Phase 1 of the Point Ruston remediation as outlined in Paragraph 17 T (amending paragraph 65), of the referenced Consent Decree.

The Consent Decree requires that Point Ruston complete required remediation of the Slag Peninsula and the approximately 10.5 acres of Nearshore/Offshore Sediments within OU6 where a sand/silt sediment cap is required. These activities have been completed, and EPA has approved completion reports for these activities.

Because of the complexities of this project, Point Ruston has broken the project into a variety of project elements for construction rather than one individual Phase as envisioned by the Consent Decree. EPA is defining Phase 1 of the project to be the work reported in the documents below which have been submitted and subsequently approved by EPA and shown on Figure 1.

- Final Construction Report Master Infrastructure Remedial Action (Hydrometrics, August, 2013),
- Final Construction Report for Phase I Remedial Action (Hydrometrics, July, 2013), Final Construction Report Waterwalk Phase - Waterwalk Construction Management , Plan (CMP) Remedial Action (Hydrometrics, September, 2013),

- Final Construction Report 2011 Shoreline Armoring Remedial Action (Hydrometrics, June 2012),
- Final Construction Report for Peninsula Park Remedial Action (Hydrometrics, March 2014).

Please let me know if you have any questions regarding this letter.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Rochlin". The signature is fluid and cursive, with a small dot at the end.

Kevin Rochlin,
Project Manager
